

Day 13

They turned on the light and began to search. They looked under the bed, behind the mountain of toys, in the closet and under the dresser drawers. They searched high and low in desperation for discovery of this dreadful thing. Unfortunately; they had little success. They only discovered a couple dirty socks and under garments, candy wrappers, a few half eaten chicken wings and used gum.

Then Clyde had an idea.

“Let’s check outside the room, maybe the smell is coming from out there”
